A Beast the Color of Winter May 21 2022 "In North America there is one large animal that belongs almost entirely to the realm of towering rock and unmelted snow. Pressing hard against the upper limit of life's possibilities, it exists here and steeper throughout the year than any other big beast on the continent. Possibly the best and most complete mountaineer that ever existed on any continent. *Oreamnos americanus* is its scientific name. Its common name is mountain goat. Resourceful, belligerent, and unbelievably sure-footed, the mountain goat is a coated survivor from the Ice Age. *Oreamnos americanus* shares its dizzying world with elk, eagles, bighorn sheep, and grizzlies. This first full-length book about the mountain goat offers a superbly written portrait of its life, habits, and environment. Douglas H. Chadwick tracked mountain goat herds for seven years, and his observations are richly textured and replete with fascinating and detailed details. We learn of the mountain goats' lives from birth to adulthood, their

habits, unique social behavior and courtship rituals, and their long history. Chadwick also makes clear the troubling and escalating impact of the modern world on the mountain goat's wilderness home. This Bison Books edition features a new introduction by the author.

The re-discovery of these ruins was deeply influential to artists and designers. Through drawings and prints, grotesque motifs were disseminated as patterns for decoration in architecture, metalwork, textiles and ceramics. The fantastic nature of the grotesque enabled artists to incorporate imagery that blurred the boundaries of the known world. Within the confines of ornamental design, artists turned elements from nature into otherworldly beings. Creatures, fierce or playful, graceful or rigid, take their place in dense and sinuous designs for brooches, ewers, rings, tapestries, stained glass and more. These intimately scaled works, often measuring just a few inches, are at times erotically charged and others moralizing. Centuries later, these drawings and prints open a window into the imagination of artists and designers as the Age of Exploration unfolded around them.

Black Panther meets Nnedi Okorafor's Akata Witch in Beasts Made of Night, the first book in an epic fantasy duology. In the walled city of Kos, conjurers can magically call forth sin from a sinner in the form of sin-beasts—creatures spawned from feelings of guilt. Taj is the most talented of the sin-eaters indentured by the mages to slay the sin-beasts. But Taj's livelihood comes at a terrible cost. When he kills a sin-beast, a tattoo of the beast appears on his skin while the guilt of committing the sin appears on his mind. Most are driven mad by the process, but Taj is cocky and desperate to provide for his family. When Taj is called to eat a sin of a member of the royal family, he's suddenly thrust into the center of a dark conspiracy to destroy Kos. Now Taj must find a way to save the princess that he loves—and his own life.
